Critically analyse the key achievements of the Lloyd George led Government

Provide clear explanations on your choice of key achievements

David Lloyd George, 1st Earl Lloyd-George of Dwyfor, OM, KStJ, PC (17 January 1863 – 26 March 1945) was Prime Minister of the United Kingdom from 1916 to 1922. A Liberal Party politician from Wales, he was known for leading the United Kingdom during the First World War, for social-reform policies (including the National Insurance Act 1911), for his role in the Paris Peace Conference, and for negotiating the establishment of the Irish Free State. He was the last Liberal Party prime minister; the party fell into third-party status shortly after the end of his premiership.

After becoming active in local politics, Lloyd George gained a reputation as an orator and a proponent of a Welsh blend of radical Liberal ideas, which included support for Welsh devolution, for the disestablishment of the Church of England in Wales, for equality for labourers and tenant farmers, and for reform of land ownership. In 1890 he narrowly won a by-election to become the Member of Parliament for Caernarvon Boroughs, in which seat he remained for 55 years. He served in Henry Campbell-Bannerman's cabinet from 1905. After H. H. Asquith succeeded to the premiership in 1908, Lloyd George
